Full Stack Developer

São João de Meriti, Rio de Janeiro, Brazil.

ABOUT ME

I have 2 years of experience in web development and I am currently a Full Stack developer, but focused on Front-End. I'm passionate about technology and I'm always looking to learn more to specialize in the area. I consider myself a hardworking person, willing to solve problems and not afraid of challenges. I'm looking for an opportunity to join as a Junior Front-End Developer, to develop myself as a professional and at the same time be able to contribute to the company's growth.

WORK EXPERIENCE

Linux Solutions - TI Support (Internship)

February 2020 - September 2021 / Rio de Janeiro, Rio de Janeiro, Brazil (Remote).

Implementation, maintenance and technical support for Linux solutions. Services performed remotely, via SSH or remote desktop tools.. Work with web development using HTML, CSS and JavaScript for modifications in Moodle systems (open-source teaching platform). Task automation in linux terminal using Bash Script/Python. Code versioning with Git.

Voltalia - Full Stack Developer (Internship)

October 2021 - Current / Rio de Janeiro, Rio de Janeiro, Brazil (Hybrid).

Maintenance and development of web applications for global use in React/Next.js, in the field of renewable natural resources. Creation of automations in Python for internal use of the company. Managing a SQL Server database and developing RESTful APIs using AdonisJS (Typescript), Django (Python) and Spring Boot (Java). Using Git for code versioning.
